That the heavy selling of the preferred stocks of the industrial companies was not the result of forced liquidation nor of selling by insiders was proved to-day in the loan crowd. Locomotive preferred was loaning at a premium of 1-8 to 3-4; Railway Steel Springs preferred at 1-28, Republic Steel preferred at 1at 1-64. Linseed preferred 1-8, Smelters tor's rejoinder. at 1-64. Linseed preferred 1-8. Smelters Several guests lounging in the corri-preferred flat and 1-256 per cent. dor overheard the Senetor's emphatic

Moticing the attention his remark had occasioned, the Senator smiled, and then dealy. It also gave the bulls some encouragement. When the industrials are attacked and every one is selling them short is the time, according, to the good judges of the market to jump in and buy stocks, as it means the beginning of the end.

There are many things that point to a change in sentiment. Railroad earnings, a better tone in the sicel and from trade and the easier tone of call money, with the prospects for more gold imports, leads many to believe that the situation is rapidly fighting itself.

The declaration of a 2 per cent, divided on the common stock of the Chitago, Hamilton and Dayton Railroad, the lifet ever declared, had a good effect on sentiment, as it showed that some railroad men still believe that the end of prosperity is not yet.

The Closing Quotations.

COTTON MARKET.

The local cotton market opened firm to-day, with prices 7 to 12 points higher. This was due chiefly to the better Liver-pool cables and cold weather through the South. Offerings were light. Both commission houses and shorts bought freely, the former reporting an accumulation of buying orders over the holiday The support was enforced by active room buying for long account, and prices continued to rise. Liverpool firmness was attributed to an absolute lack of sellers. Members of the Liverpool Cotton Exchange estimate our crop at 11.004.006 bales.

The opening prices were: Description

11.004.000 bales.

The opening prices were: December, 11.10 to 11.11; January, 11.17 to 11.18; February, 11.21 offered; March, 11.27 to 11.28; May, 11.25 to 11.26; July, 11.26 to 11.27; August, 10.95 to 10.96.

The closing prices were: Nov., 11.11 to 11.28; Dec., 11.12 to 11.13; Jan., 11.18 to 11.19; Feb., 11.20 to 11.21; March, 11.25 to 11.26; April, 11.23 to 11.25; May, 11.23, June, 11.23 to 11.25; July, 11.23; Aug., 10.91 to 10.93. The market closed steady.

WHEAT MARKET.

Wheat opened firm with a fair specu-lative trade to-day due to strong cables and light Northwest receipts.

Core opened firm and higher, influenced by the advance of 1-2 to 1d. in the Bish market.

W York's opening prices were:

Wet-Glay, 83 3-4; July, 80; December,
Conn-May, 47 5-8 bid.

Bongo's opening prices were: Wheat

LONDON STOCKS IMPROVE.

Hesitating Spell in the Market. LONDON, Nov. 27.-Rates for mone were firm and the supplies were abundant in the market to-day; but the keenness of the demand was somewhat

keenness of the demand was somewhat abated. Discounts were firm and quiet the weakness of New York exchange renewing the apprehension of considerable further withdrawals of gold. Otherwise the prospect of a rise in the Bank of England's rate of discount this year was minkrized.

Business on the Stock Exchange opened undecided and rather oull, but afterward prices were generally firm on investment buying and indications of increasing speculation. Consols hardened on the firmness of money, being referable only to the month-end requirements. Americans were steady and neglected and closed easier. Kaffirs were moderately cheerful and irregular. Copper was flat, the Grop in American prices having shaken confidence. Consequently the bears offered freely on an unwilling amrket.

BROOKLYN.

We Have Squeezed a Lot of Nonsense Out of the Shoe Business

Most of the \$3.50 shoes can be retailed at a profit at \$2.50—and it's being done right along. Most of the \$3.50 shoes have-

n't more than a dollar's worth of leather in them. A dollar-and-ahalf is enough to pay for the making and selling and give a fair profit. \$2.50 will buy a shoe

as good as almost any shoe on the market. We would'nt be foolish enough to make that statement if we couldn't

prove it. We're prepared to back up the talk with the shoes.

It's like this — we want to reproduce a certain style \$3.50 shoe. We take the shoe and dissect it-find out exactly how it is made. Then we go into the leather market with the cash in our hands and we buy all the material we need to make so many thousand pairs of that identical shoe, and we get prices down to bed-rock.

Then we get competitive bids from several factories for making the shoes. All the factory man has to figure on is labor and the use of his machinery, so he figures close.

The shoe we sell for \$2.50 is all shoe. No part of your \$2.50 goes to pay for waiting time, dull seasons, mistakes or bad accounts. And the style and quality are all there

New York's Best Family Cough Medicine

Christmas Looms Lambert Vaults HANKSGIVING over, the next holiday to plan for is Christmas, less than a month away and Rapidly Filling

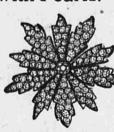

how that month will fly you scarcely need to be reminded. Our suggestion about storing up Christmas gifts has found such favor that the strong Lambert vaults are filling up with

holiday surprises. Even purchasers who come in at the last minute are certain of kindly attention, but of course we can do fuller justice to customers and to ourselves when they order Christmas gifts now and arrange for engraving before the full sweep of the holiday rush strikes our factory. After giving your order you have no further worry about it until you call to pay for it and we get it out of the vault. That transaction takes about a minute and a half. Time is precious when we are almost in the shadow of the Christmas tree.

A great many of the beautiful things you see in our store are made in the Lambert factory. What we do not make we buy of the best manufacturers. In all cases we are able to offer jewelry fresh and original in design and exquisite in workmanship, at prices so modest as to astonish you. The reason is that all middlemen's profit is wiped away.

The Lambert store is aglow with Christmas-gift suggestions. Some friends tell us that our exhibition was never so brilliant, varied and interesting.

Sunburst Paved with Pearls.

A solid 14-kt gold brooch, majestic in design and finish. A leaf sunburst paved with selected fine halfpearls. Fine

diamond in the centre, like a touch of sunlight. Can be worn as a watch pin. Only by abolishing intermediate profits can it be sold for the price, \$40.

Really a Work of Art.

Brooch of design so novel that it will be noticed even among larger and more pretentious ornaments. Solid 14-kt. gold,

with boldly modelled enamelled head, naturally enamelled orchid and fine diamond. A gift of rare charm, and the price is only \$32.

A Radiant Butterfly.

The Butterfly, of solid 14-kt. gold, paved with half pearls, has a sapphire head, and

rubies in the wings and 2 fine dia. monds. No butterfly in the summer fields is more brilliant than this superb brooch. And it will cost you but \$45. A smaller one at \$32.

Lambert Improvements in sample de vice Watchmaking

"I want a watch to cost about so much. Wrat can you do for me?" "Well, what sort of a watch?"

"Ob, I leave that to you."
Such conversation is a common occurrence in the LAMBERT store. Even strangers are content to leave details to us when they buy watches. Twenty-seven years of hard work and honest dealing inspire confidence on the customer's part and impose a delicate responsibility on us. Sometimes you will see hundreds of watches in one of our show windows. Every one is fully guaranteed. An expert, a keen searcher for flaws, has taken every one of them apart and put it together. Although we do not make movements, our watchmakers have made so many valuable suggestions to leading makers that we have done much to raise the s'andard of watches. The men in our watch department can make watches by hand. Carefully selected details from the best watches made are united in the now famous LAMBERT movement, manufactured ex-clusively for us. The word LAMBERT on a watch is a recognized trade mark. Other stores have often tried to buy these movements (we don't blame them for that), but we keep them solely for our retail trade.

We Remodel Old Jewelry, giving it modern shapes and styles. No charge for special designs by our own artists; or we will carry out your own ideas.

Where Business and Sentiment Mingle.

Say what you will, you cannot altogether dissociate business and sentiment. At least we cannot, as long as we make Wedding Rings, and we expect to continue making this branch of our work as prominent as it has been for 27 years. Simple as they are, these rings represent the best work that the best goldsmiths in America are capable of, They are seamless, guaranteed full weight and of all widths. 14, 18 and 22 karat, \$3 to \$20. There is no charge for engraving.

In the honesty and skill devoted to them, and in the excellent results attained, these rings are typical of the LAMBERT methods. We are proud of them for that reason, as well as because they are always worthy of the solemn occasion on, which so many of them have been used.

Pretty Gift for a Lady.

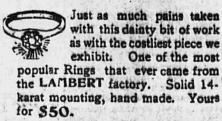

14-kt. gold case, somewhat heavier than the one we sold last year for the same money. Choice of Waltham, Elgin or LAMBERT works. A watch

to be proud of and a faithful timekeeper. Nowhere else can you get a prettier or as good a watch for the money. \$18.

The One Way to Save on Diamonds.

The diamonds that shine in our rings, earrings, brooches, stick pins, etc., are our own importation. We buy them in large quantities. If we stuck to the old way of business, we should buy them of a jobber, who in turn bought them of an importer. In that case LAMBERT diamonds would cost you about as much as anybody else's. The way we lower the price of diamonds is by importing them direct from Amsterdam, and because we do this we save money for our customers.

The diamond in this Ring is our own importation, and is cut so as to show its remarkable beauty to the best advantage. Solid 14-karat gold. Something to gladden the eyes of every lover of beautiful stones and artistic mountings. \$25.

And here is a two stone Ring, with two fine diamonds set so that they look as much alike as twins. Mounting of solid 14-karat gold, hand made. A fine example of LAMBERT work. \$65.

Always a Welcome Gift.

There are few more acceptable gifts than a pair of opera glasses. They are userul not alone at the theatre. but on other occasions, and are always sure to give pleasure. The glasses shown in the cut have gilt tubes, pearl tops, beaded edge and all pearl sides. We import them direct. The price of this pair is \$5. have others more expensive.

Solid Gold Guard Chains.

With few exceptions we make our own solid gold guard chains with solid gold slides. Frices range from \$10 to \$500—the higher priced ones being set with sparkling precious stones. The same LAMBERT ideal of excellence marks the

the one for \$500. Each of the two chains shown in the 48 inches long.
